GREATECS is an innovative manufacturer of high quality electronic components with attractive pricing and short delivery times. Customers can choose out of more than 6 million different options of switches, encoders and sensors. All components are compliant to the RoHS directives and have passed a number of international approvals such as UL, CSA, SAA, VDE, TÜV, SEV, SEMKO.

GREATECS products are used in various applications: automation, automotive, broadcasting, industry electronics, IT peripherals, networking equipments, medical equipments, POS terminals, security technology and telecommunication. Our customized solutions include modifications, assemblies and components fully developed according to customer specifications.

GREATECS is your partner in production, design, research and development. Please send us your inquiry and we will assist you with our premium customer service.
